| Subject: | November 2020 Maricopa Count Election Recount |

Comments:

It is vitally important that a forensic audit and recount of the November 3, 2020 national and statewide election ballot in Maricopa County be done so that there is no question about the results. I feel that the best person(s) to do this would be either Jovan Sutton Pulitzer and his team or Matt Braynard and his group at the Amistad Project. This will probably be last chance to determine the validity of the 2020 election in Arizona. Please be diligent in this process.
