Thank you for your efforts to bring truth to the American People...and to the world! All eyes are on you. I pray God's blessing, strength and endurance are on you as you do battle with the 'Democratic Machine', hellbent on power, greed and destroying the world's last beacon of hope for liberty and freedom. Please know that the will of the people is that all corruption, in those in power and influence, be exposed and eradicated. Thank you on behalf of my children, my children's children and their children! Stay strong! God Bless You!
