Subject: Election Audit - Secure the ballots/machines

AZ GOP Elected Officers,

Kelli Ward, you have warned us to prepare for more roadblocks from the Maricopa County Board of Supervisors. We reject this and request you meet with the Republican State Senators to discuss the following:

Arizona Revised Statute 16-624(A) states, "After the canvass has been completed, the officer in charge of elections shall deposit the package or envelope containing the ballots in a secure facility managed by the county treasurer, who shall keep it unopened and unaltered for twenty-four months for elections for a federal office or for six months for all other elections, at which time he shall destroy it without opening or examining the contents."

Judge Thomason's order states, "The County claims it has not stored the ballots with the County Treasurer as required "because of ongoing litigation." The County states that it will deposit the ballots in the Treasurer's vault, "as the law requires," only after litigation concludes. It is unclear why the County feels justified in violating the law simply because litigation is pending, but claims that it cannot violate the law by complying with the Subpoenas."

Why hasn't the Senate done something about the Maricopa County Board of Supervisors' violation of ARS 16-624(A) by not transferring custody of election material to the County Treasurer?

We demand the audit be conducted in the Maricopa County Tabulation and Election Center where there are IP addresses, internet connectivity, nest cameras, modems, and routers (and all the data in them) from "the scene". Why would we disengage all of that and attempt to recreate it in another location? The taxpayers own the building, the audit is funded by the taxpayers, the chain of custody would be protected, and it is customary practice when fighting over disclosure and subpoenaed items to make said item available at their physical location when it is impracticable to do otherwise.

The Senate needs to get Judge Thomason on the phone to get the matter on the record now. Demand access pursuant to the order and ask the judge to hold the Board in contempt if they do not open the doors now. The Judge made every point to reinforce the Senate's authority over the County.

We expect the GOP Elected Officers help see this done.

To all,

Due to the gravity of this situation & the potentially illegal actions already conducted by the Board of Supervisors, we demand IMMEDIATE action be taken to secure the ballots & prevent any further delay.

Take action now to conduct the audit in the Maricopa County Election and Tabulation Center. The taxpayers own the building, the audit is funded by the taxpayers, the chain of custody would be protected, and it is customary practice when fighting over disclosure and subpoenaed items to make said item available at their physical location when it is impracticable to do otherwise.

Contact Judge Timothy Thomason - demand access now - if the Board does not comply, hold them in contempt.

We the people of Arizona paid for these facilities, machines, paper ballots and everything else related to the election and we want the machines and paper ballots to stay where they are currently located and the full audit to take place where they are currently located.

Step up to the plate & see this through, Legislators!

To all Arizona Senators,

Due to the gravity of this situation, the many roadblocks put up, and potentially illegal actions already conducted by the Maricopa County Board of Supervisors, we demand IMMEDIATE action be taken to secure the ballots and prevent any further delay.

You, as the Arizona State Senate, have plenary authority to conduct this audit and as such, you should force legal and physical custody of the ballots to be transferred from the Board, to the Senate, now! We implore you to order the ballots remain in the vault and access be removed from the Board and transferred fully to you.

Subject: 100% Paper Ballot and Machine Audit - Nothing Less!

Senators, we will not accept anything less than a 100% audit of the real paper ballots and an audit of all machines. Jovan Hutton Pulitzer needs to do this paper ballot audit. There is information being presented online that there is a potential plan for a sample audit of the real paper ballots. Nothing less than a 100% real paper ballot audit and an audit of all machines will be acceptable.

We have come too far to do an inadequate audit. Make this 100% audit happen whatever time, resources and money is necessary! This is the most important thing you will likely do in your political career, probably in your life.

One more thing, Col. Phil Waldron should also be added to the list of auditors I noted in my previous email noted below.

Subject: 2020 Election Fraud

To all,

I am a legal resident of Arizona, a U.S. citizen and a tax payer and I have grave concerns about the 2020 election. These concerns have prompted me to contact you to demand that you stop Big Tech, Big Media, Foreign Countries and the corrupt Democrats from stealing this election. We have all seen the numerous documented examples of real election fraud and I demand that you take the necessary action to defend our state and Federal constitutions to get this election right.

I also urge to select electors who will cast our 11 electoral votes for the rightful winner in our state election, President Donald J Trump.

Additionally, I urge you to do a complete audit of the ballots and the electronic systems used in the state of Arizona along with a review of all down ballot races and bills.

I believe we need to go back to paper ballots only (no mail-in ballots) on election day only and use manual hand counting of ballots. We also need photo voter ID's, signature verification and fingerprint verification for every ballot cast on all future elections. This is a much more secure voting system, in my opinion.

Thank you in advance for your timely action on these demands, we are all counting on you. Now is the time for all good men and women to come to the aid of their country!
