Subject: Subpoena Enforcement by Statutes And Hold on to the Ballots!
Attachments: Arizona Subpoena Analysis For Gail Golec.docx

Hello All,

As things are wrapping up at the auditorium and the budget has been passed, as we know there still lots of work to be done and issues on the table as it relates to the audit. I do want to say, at the forefront, we are grateful for what has been thus far. We can not retreat now.

One of my subscribers from my YouTube channel put together this incredible piece of information that really shows without a shadow of a doubt that we need to have the Senate and/or the House in Session in order to enforce the Subpoenas.

We can not enforce Subpoenas if you go into Sine Die. We can not pass resolutions, or laws if you go into Sine Die. We need an extended recess.

Lines 363 – 402 show the statutes involved with this.

AZ Rev Stat § 41-1153 (2019)
41-1153. Disobedience of subpoena as legislative contempt

- A. If a witness neglects or refuses to obey a legislative subpoena, or, appearing, neglects or refuses to testify, the senate or the house may, by resolution entered in the journal, commit him for contempt.

I'm sending you the entire piece because of the details of other incidences that you may find to be helpful at some point.

Also, I know I have spoken and/or emailed you about this, please do not under any circumstance give the ballots back to the Recorder, Treasurer of BOS.

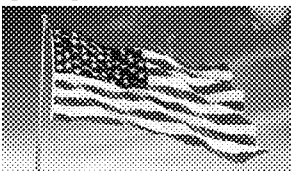

We have no idea what they will do with them and we do know that we will be in court. Please protect OUR sacred American Ballots.

Our ballots are our voice and our means to freedom. Please put them in a secure location until November or 2022 as required by law. We may need to keep them longer as this plays out.

We can not trust them and if we go to court and they manipulated the evidence in any way it is us against them, as always.

Thank you for you time and consideration.

Gail Golec

Subject: Re: Hi From BoerboelMummy

Hi Gail, I do hope you are well...

please find attached my analysis of the subpoena issue in Arizona. I'm afraid it's a little long but it's a subject that required a great deal of context and background as well as research.

I'm afraid it doesn't contain a great deal of good news on this respect, but a lack of options does concentrate the mind and spirit on the courses of action needing to be undertaken.

Please have a read, let me know what you think and if I may help further, please do let me know. Please feel free to write at any time.

My kindest regards

C
