Senator Karen Fann, President
Arizona State Senate

Honorable Senator Fann:

America, Priceless Liberty & Freedom, the Constitution and the Rule of Law are in grave peril! Every state legislature in America is intently watching to see if the Arizona State Senate has the courage, determination and steadfastness to fully enforce its Constitutionally-delegated authority and lawful subpoenas. Unless your demands to produce the routers, passwords, source codes, etc. to forensically investigate the routers, tabulators, Dominion machines, etc., critical evidence (i.e., Internet connection before, during and after November 3, 2020) will remain hidden, pieces in the puzzle will be forever missing, and your promise to the citizens of Arizona to conduct a full and transparent forensic audit will be broken. Please take whatever ACTION is necessary to obtain all of the materials you have demanded.

Please find attached "Priceless Liberty & Freedom are 'Hanging By A Thread.'" Mike Lindell is producing a "Cyber Forensic Election Symposium" in July (<https://uncoverdc.com/2021/06/29/lindell-updates-dominion-motion-denied-televised-cyber-symposium-announced>). The 'Lying Left' have told a billion lies since the election claiming that there is no evidence. The legal evidence you could share would help to quickly win this battle to rescue our Constitutional Republic before it is too late. "Time is of the essence!"

The genuine Patriots of America are diligently praying daily for your total success. **HAPPY 4TH OF JULY!**

Please stay safe and God Bless!

Yours for Priceless LIBERTY,

Scott Rille, Paralegal
