The Maricopa County BOS is somehow approving the purchase of new voting machines when they should be being indicted for treason.
Do you guys even know who Barry Goldwater was???
We are past heading towards communism, we're there.
Save our republic. Don't make us do it or it will cost many lives and we will most likely lose the light of the world anyways. I stand ready to die for freedom.
Don't make that our only option. Arrest the MCBOS immediately.

Thank you

One vote per citizen period. We see this is an easy concept.

Please stand strong, if you fail we won't but we will shed much blood.

Thank you

As a voting citizen whom executes that responsibility solemnly, I commend you for the ongoing audit of Maricopa County Nov 3rd general election. Probably should be a standard practice for

every election.

Here are two thoughts that I will be espousing daily to fellow voting citizens as well as you as a body politic.

1. No machines of any kind. There is no need to develop an algorithm to add 1's unless your intention is to cheat.
2. We need a statewide electoral system similar to the federal system, to insure that Maricopa's corrupted officials are not in a position to steal the state ever again.

We have thieves and squatters in DC but the Senate Republicans of AZ are solid citizen Americans. We are sick and tired of career politicians stealing elections to enrich themselves off of our dime. Keep up the good fight or we will.

Don't be afraid to arrest these traitors

Thank you

The Maricopa County Board of Supervisors is an unelected group of corrupt criminal bureaucrats. The Senate is presumably an elected body.

These distinctions matter to us.

We are stuck between communism and civil war. It's in your hands to do right by your country.

Arrest the whole MBS now.

The question is: Is the AZ State Legislative body compromised by Chinese/Dep State actors?

The Maricopa board of election supervisors appears to be completely compromised. Where is law enforcement on this. Adrian Fontes is a criminal gangster.

Please stand for the people of the state of Arizona.

How dare we accept this.

Again, registered Republican voter here:

You have the consent of We the People of Arizona state to arrest those involved in obstruction of justice on the fraudulent federal election that took place November 3rd.

Maricopa County was not the only county that cheated although Adrian Fontes of Maricopa has been cheating for the democratic socialist party for multiple elections. You know this. Do something, we are paying close attention.

Also, fix the
