Subject: AZ audit so far

Think Kelli Ward provided a good summary.
Heard Sen. Rogers correctly wants to recall the electors and go with the DULY ELECTED PRESIDENT.
Believe Sen. Townsend is ready for our AG to start indicting people.
Let's get moving on this.
Every day, more destruction occurs in AZ, the US, and the world because of the COUP.
There were no "mistakes," nor "misunderstandings," this was cold-blooded, well-planned, and a conspiracy.
Remember these vile individuals are Marxists: they worship Satan, have NO respect for human life, and are insatiable when it comes to power and wealth and any manner of abusive control. THAT is who we ARE dealing with.
They are who they show themselves to be. Look how they morphed "abortion" to "rare and necessary" to now even after a full-term baby is born: Kill it if the breeder wants it dead.
Look at the series of LIES that Maricopa County twitter account spewed. The stonewalling.
It's disgusting.
We CITIZENS have ZERO interest in being Commie slaves.
Don't care if you "know" the enemy and believed them to be good people. By their fruits ye shall know them. They ARE EVIL. Period.
Let's get those arrests rolling NOW.
Not sure how deep all this goes, but start looking at people who have stepped up to run for office and maybe we need to have an election for those slots, but clearly, getting a legit governor in is going to be key.
Ducey IS dirty. No doubt about it. That LONG vote count stop could not have happened without HIS permission. He's also not supported Trump though he had to know a lot more than you're even aware of now.
Need to stay in touch with other state legislatures, such as PA, but we need to LEAD and we need to clean this state up.
There is NO valid reason for other than paper ballots.
We need clean voter rolls.
We need voter ID.
We need several safeguards set into place.
We SHOULD get our electors in the Trump column where they always belonged; until other states do the same, there is an issue. However, we have a TON of corruption here. I know I voted for Ducey, not because I wanted to, but didn't have much choice. Well, he's going to be in prison.
I AM supporting Kari Lake for governor; maybe we need to have a "special election" or something SOONER rather than later.
We need to know who can be trusted (mainly military and NOT fed "officials" esp. NOW) and start hauling people off. But when it's a sitting governor, SoS, etc. we need a replacement in there pretty fast,

so someone's get to get to coordinating.

May still need to do another election even, but the cancer of treason needs excising.

Agree 2022 is important but unless we want to end civilization and just make NOTHING illegal, THIS THEFT: OUR ELECTION, must be dealt with.

You also have some losers on the bench. Hope appropriate investigations have been ongoing there to OUST THEM FOR CAUSE. We do NOT need some bought and paid for Marxist shill pretending that this can be put off, that there is a "standing" issue, or that "too much time went by."

Enough of the insanity.
