REPORT**

DATE SUBMITTED TO SUPERVISOR: September 28, 2020

CASE NUMBER: SIS-2020-0323

DATE APPROVED BY SUPERVISOR: September 29, 2020

CASE NAME: Guillermina Fuentes

REPORT TYPE: Latent Prints / Comparison - Supplement #2

AGENT: Knuth, William

SUPERVISOR: Supervising Special Agent John White

On August 29, 2020, I was informed by Yuma County Sergeant Hemstreet that latent fingerprints had been lifted from suspicious ballots collected on August 4, 2020. These prints will be compared to the fingerprints of Guillermina Fuentes.

On September 14, 2020, I was contacted by Hemstreet and advised that he had obtained a warrant to obtain fingerprints from Fuentes and had served that warrant and obtained the fingerprints.

On September 17, 2020, I asked Hemstreet to send the fingerprints obtained from the ballots and the fingerprint sample obtained from Fuentes to the Federal Bureau of Investigation (FBI) for comparison. On September 22, 2020, I was advised by Hemstreet that the fingerprint evidence had been transferred to FBI Agent Ryan Furr who would send the evidence to the FBI Laboratory in Quantico, Virginia for analysis and comparison.

Upon request, Hemstreet provided me with a list of names associated with the suspicious ballots collected on August 4, 2020. Subjects on that list will be interviewed regarding their ballots and to confirm that their signatures appear on the ballot envelopes.
